

## TAKAMINE TAN20C TAN 20C CUTAWAY ELECTRO ACOUSTIC GUITAR

Model : -

Manufacturer : -

The Takamine TAN20C 6-String Jumbo Electro Acoustic Guitar features Solid Cedar Top, Mahogany Back And Sides in Natural Satin. Guitar is in excellent condition and has an amazingly comfortable neck! Costs anywhere between &#pound;1,400 to &#pound;1,600 new, so grab yourself a bargain!

The Takamine TAN20C was conceived to give you the biggest and widest acoustic sound possible, featuring solid cedar top, solid mahogany back, a thin satin finish and no pickguard.

Takamine TAN20C main features include:

- Body Shape: Jumbo Cutaway
- Rosette: Tinted wood rings
- Top: Solid Cedar
- Inlays: None
- Back: Solid Mahogany
- Sides: Mahogany
- Fingerboard: Rosewood
- Electronics: Takamine CTP-1 &quot;Cool-Tube&quot; (read more below)
- Tuners: Gold with Amber Pearl
- Scalloped bracing

The Takamine TAN20C has a built in tube pre-amp that raises the bar even further! It's so good that Takamine made it available for individual purchase, costing over &#pound;200 to buy (see here). Fortunately, this beautiful acoustic guitar comes with it factory fitted. Read the blurb below to see just how good it is for yourself.

Takamine Cooltube CTP2 Description

The Takamine Cooltube is the first and only on-board tube preamp for acoustic guitar. Featuring a 12AU7 (ECC82) valve, it delivers a warm, rich harmonic tone available from no other preamp. Furthermore, due to the unique low voltage circuit designed by Takamine, the tube does not glow or radiate high levels of heat which could damage the tone woods of the guitar.

Powered by 4 AA batteries, the Cooltube preamp features 3 band shelving EQ, a built in chromatic tuner, and an auxiliary input with blend control for adding a secondary pickup such as the Tri-Ax&reg;

## TAKAMINE TAN20C TAN 20C CUTAWAY ELECTRO ACOUSTIC GUITAR

This new version, the CTP-2, differs from its predecessor, the CTP-1, in the following ways;

- Lower noise
- Quicker tube warm up time
- An independent on/off switch on the back of the pick up
- No 'volume swell' when increasing the tube level on the preamp

This stunning instrument truly is in MINT condition. It only possesses one minor imperfection on the front of the body, which can just about be seen in certain lights, but really is barely noticable. So much so that I couldn't get it to show on camera.

**Price : £635.00**
